Exchange Server Hosting Feature List

New Exchange 2003 Features:

- **ActiveSync:** Synchronize your PDA's Pocket Outlook wirelessly!
- **Outlook Mobile Access (OMA):** A special simple interface for access from the web browser on any wireless device - cell phone or PDA.
- **RPC over HTTP:** If your ISP blocks port 135, a VPN is not needed. Requires Windows XP.
- **WebMail (Outlook Web Access / OWA):** Enhanced to add more functionality and looks almost exactly like Outlook 2003.
